# LONGEST DAY OF GOLF

**The Longest Day of Golf is presented by the  
Balance & Believe Foundation**

***Blackhawk Country Club  
June 19th, 2023***

The Longest Day of Golf is a day-long fundraiser benefitting the UW Carbone Cancer Center, the MACC Fund, and the participating Junior, High School, and College Golf Programs.

Teams will sign up as a group and play as many holes as possible at Blackhawk Country Club in one day. Teams can bring as many golfers as they would like and play in "shifts". Juniors, Professionals playing with a Junior Team, High School, and College Golf Programs are welcome!

Teams will raise money at their local golf courses, through friends and family, and alumni bases. Donors will donate on a "per hole played basis". For example, if John Smith donates \$1 per hole played, and the team plays 200 holes, John Smith will donate \$200.

Portions of the money raised will be donated back to the Junior, High School, College Programs, and local Golf Courses from the participating teams.

***\*Carts will be provided for players\****

***\*Juniors must be 16 years old to drive cart unless playing with a pro\****
